Problem Statement:

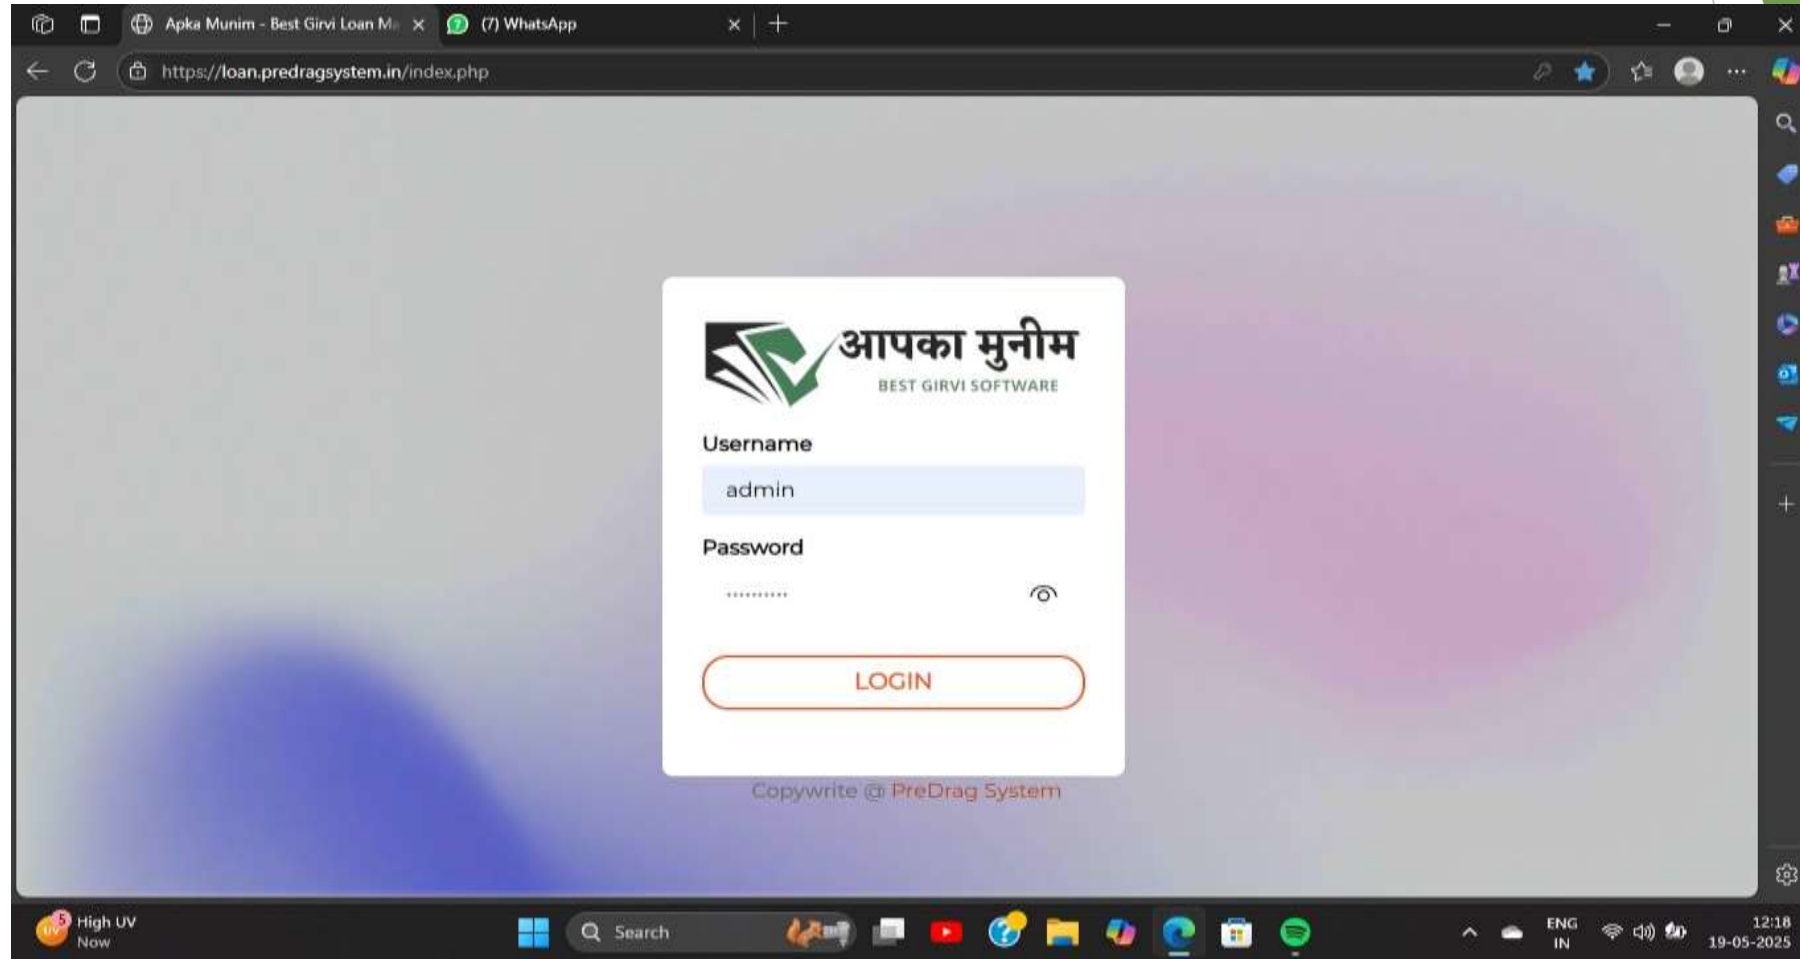

Gold LOAN MANAGEMENT SYSTEM

- A **Gold Loan Management System** is quite similar to a gold loan management system but may include a broader range of pledged items (e.g., diamond, platinum, or gemstone-studded jewelry) rather than just plain gold. Below is a complete project overview tailored for **Gold Loan Management**.
- To create a comprehensive system for financial institutions or pawnshops to efficiently manage loans issued against various types of jewelry, ensuring proper tracking of pledged items, loan status, interest, and repayments.
